

I, a citizen or resident of Canada,
add my voice to the organizations
calling on the Canadian government
to abolish the closed work permit.
Temporary migrant workers are issued
a closed work permit and, in cases of
abuse, exploitation or forced labor, it
is extremely difficult to change their
situation.

*I call on the Government of Canada to
introduce the OPEN work permit
without delay, and to adopt a work
authorization system that allows
temporary foreign workers to freely
change employers while in the
country.*
